Stackable & Non-Stackable  
**Sharps Containers**

# Your safety is our **NUMBER ONE** priority.

## **Sharps are an important part of your everyday operation.**

You need convenient and easy to use containers with a selection of sizes, shapes, and lid designs to fit your specific requirements.

Sharps need to be secure, so you need closable lids during use and reliable, permanent-locking lids for transport and disposal. You may also need a way to secure them when they are not attended.

Staff and patient's safety is critical. Puncture resistant rigid plastic and leak resistant designs are expected. You need lids that are simple to use and that prevent accidental exposure. Handles increase staff safety during use and transport.

Disposal needs to be secure. Containers should be autoclave and incinerator safe. When properly incinerated, containers only emit carbon dioxide and water. The containers themselves should be recyclable.

Medegen has been producing a broad range of quality Sharps containers for over 20 years that meet your needs. We manufacture in the USA in accordance with all regulatory requirements.

## Stackable **SHARPS-tainer**®

- The most cost effective solution
- One hand usage
- Easy to Store
- Broad Range of Capacity – 1 Quart to 16 Gallons
- Translucent containers and lids facilitate easy viewing of content level
- Wall mountable with available hardware increases staff work space and provides an additional level of security
- Tortuous path limits accidental exposure
- High capacity units have wide hinged lids to accept large sharps like endoscopic accessories, elongated disposable instruments, and probes
- Wide, horizontal-drop lid containers accommodate larger syringes and allow using fill capacity
- Chemo Waste (White) with Chemotherapy waste labeling/CYTA Symbol for easy identification

### INNOVATIVE Lid Designs

#### Tortuous Paths

Balance Rotational Lid

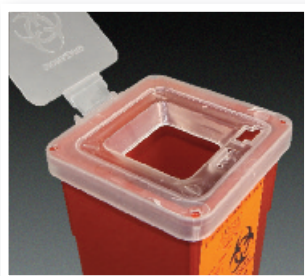

Hinged Slide Lid with Needle Remover

Hinged Walled Lid

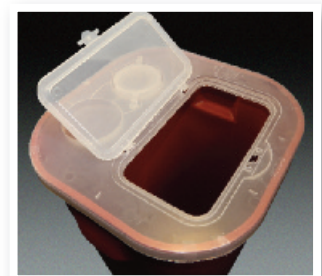

#### Specialty Lids

Phlebotomy Lid with Needle Port

Slide Closure Lid

Wide Hinged Lid

## Non-Stackable **SHARPS-tainer**<sup>®</sup>

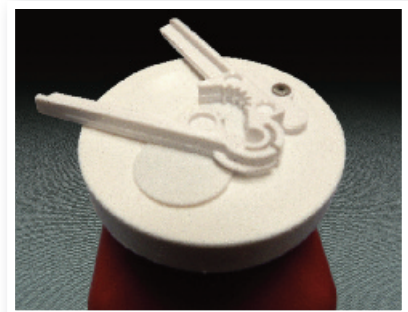

- Most Robust Sharps Container
- Broad Capacity Range - .7 Quart to 5 ¾ Gallon
- Containers are fully assembled
- Extended handles keep fingers away from opening
- Extended neck with funneled vertical drop helps minimize exposure and over filling
- Most spill resistant containers
- Handle openings provide ability to secure
- Locking screw cap is leak resistant and can be easily opened/closed during use and provide an extra measure of security when locked
- Chemo Waste (White) with Chemotherapy Waste labeling/CYTA Symbol for easy identification

**Extended Neck with Tortuous Path Petals**

**Locking Screw Cap w/Tortuous Path Petals**

**Needle Port Remover**
